Casey Chalem Anderson makes paintings for people who love the water and crave the calm and tranquility of being near the sea. She maintains a full-time painting studio in Sag Harbor, New York directly across from magnificent Noyac Bay. The ever-changing light, wind and colors of the water provide a dynamic source of inspiration for her paintings.

The seashore can transport people to a calm and peaceful place. To foster that tranquility and connection with the sea, Casey has launched the new weekly newsletter "Breath of Salt Air." The free newsletter includes photos, sketches, paintings and words that are designed to inspire readers with the experience of being seaside.
